

Think we're providing just another Practice Management System?

# think again!

Understanding your market, everyday tasks and typical challenges has helped us to develop our software to ensure that it offers you everything that you need.

We haven't tried to make your requirements fit our system, instead, we listened from the start and we built it with all the intricacies and smart features that you need to best support your patients and practice.

**We know you're busy and need to be mobile when working at a yard or remote site, so we've made sure our PMS can keep up!**

#### VetIT promises you:

- An intelligent and intuitive interface, designed to be user-friendly
- Simple IT infrastructure with the peace of mind that backups happen automatically
- Access from anywhere, any time
- Outstanding support 7 days per week from our friendly team
- Cloud based technology
- Thorough and categorised in-depth reporting
- Comprehensive accounting features to allow management of payments, invoices and debt

#### PLUS the ability to:

- Onsite working using our mobile app even without a connection
- Offer unlimited discounting for different clients, horses, yards or account groups
- Add multiple owners to the horse accounts
- Choice of invoice styles - report style, standard and yard
- Reminder management module allowing multiple different delivery methods - SMS, Email or post
- Export detailed reporting information for your business
