Think we're providing just another
Practice Management System?

think again!

Understanding your market, everyday tasks and typical challenges has helped us to develop our software to ensure that it offers you everything that you need.

We haven't tried to make your requirements fit our system, instead, we listened from the start and we built it with all the intricacies and smart features that you need to best support your patients and practice.

We know that there's a lot to keep on top of in a busy practice, but with our PMS you're in safe hands.

VetIT promises you:

- An intelligent and intuitive interface, designed to be user-friendly
- Simple IT infrastructure with the peace of mind that backups happen automatically
- Access from anywhere, any time
- Outstanding support 7 days per week from our friendly team
- Cloud based technology
- Thorough and categorised in-depth reporting
- Comprehensive accounting features to allow management of payments, invoices and debt

PLUS the ability to:

- Configuration setup addresses the needs of all your disciplines
- Onsite working using our mobile app even without a connection
- Customise pricing per herd or practice, client and VIP club levels
- Input different addresses for herds and horses in different locations
- Configure appointments to the time length that you need for different disciplines or locations
- Import and stock control with batch numbers for distribution
- Export detailed reporting information for your business

Looking for more?
